Casos de uso

Use Case: New Gear

1. **ID Use Case: UC01**

1.1 **Use Case Diagram**

```

    actor Manufacturer
    usecase UC01 as New Gear
    Manufacturer --> UC01
  
```

1.2 **Brief Description.**
A user can register a product/gear on Production Loop system. To get this done, the user should be registered also as a manufacturer.

1.3 **Rationale**
The product/gear will be the center of the application. All the actors in the application will be related through the product/gear.

1.4 **Users**
Directly: Manufacturers. Indirectly: Dealers, Rentals Companies.

2. **Data Structure Definition**

2.1 **Data description**
The data structure was taken from listing structure. The fields in BOLD means that those fields are proper or just related to Products

2.1.1 **Product**

Seventh Framework Programme [FP7]
Experts for Research Activities
Research Openings
The Bureau for Enhancing Cooperation with the European Community in Science, Technology and Innovation through its International from the VI Framework Programme, created the Argentina Bureau for Enhancing Cooperation with the European Community in Science, Technology and Innovation in October 2005.

The aim of this Bureau is to establish a platform in Argentina in order to improve and expand cooperation activities in the science, technology and innovation area both with the European Union and with its member states.

This aim will be reached by helping researchers, research institutions and local small and medium sized enterprises make a better use of present and future programmes and tools and by coordinating this participation with other Latin American countries that have association agreements in this area with the European Union (Brazil, Mexico and Chile).

This Bureau will:

- Develop an information programme about the European Research Area (ERA) and the opportunities it offers Argentine researchers.
- Implement Web sites and a help desk to answer specific questions about

Vertria to Partner with Major eCommerce Vendor

Item Last Updated by [Andre Assante](#) on June 5, 2008

Vertria Technologies, LLC has partnered with ASPDotNetStorefront to respond to the growing need for online eCommerce websites. ASPDotNetStorefront is the leading ASP.NET shopping cart platform in use by over 5,000 developers, having been implemented by over 10,000 merchants. By supporting the design and implementation of this technology, Vertria will be able to meet the requirements of those merchants who need an online presence which is Visa/Mastercard PAMP certified, one which supports both wholesale and retail entities.

Ektron Content Distribution to Multiple Devices and Formats Via XML

A key feature of XML is its ability to repurpose content for any Web-enabled device: browser, handheld device, cell phone, print, etc.

DHTML auto submenuheight

Al Pacino Posted: Thursday, January 24, 2008 10:40 AM EDIT

Joined: 1/24/2008 Posts: 3

Is there any way to set the height of DHTML menu submenu items dynamically? My client wants to shorten the width of the submenu items, but not reduce the amount of text and asked if this could be done. Thanks

You can set the height; but there is not dynamic way to change it.

Troop Surge in Iraq

110th CONGRESS

1st Session
H. CON. RES. 63

Disapproving of the decision of the President announced on January 10, 2007, to deploy more than 30,000 additional United States combat troops to Iraq.

IN THE HOUSE OF REPRESENTATIVES
February 12, 2007

Mr. SKELTON (for himself, Mr. LANTOS, and Mr. JONES of North Carolina) submitted the following concurrent resolution, which was referred to the Committee on Armed Services, and in addition to the Committee on Foreign Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned:

CONCURRENT RESOLUTION

Disapproving of the decision of the President announced on January 10, 2007, to deploy more than 30,000 additional United States combat troops to Iraq,

Resolved by the House of Representatives (the Senate concurring), That—

(1) Congress and the American people will continue to support and protect the members of the United States Armed Forces who are serving or who have served bravely and honorably in Iraq; and

(2) Congress disapproves of the decision of President George W. Bush announced on January 10, 2007, to deploy more than 20,000 additional United States combat troops to Iraq.

Welcome to Rhinestone Biz, your source for Genuine Swarovski Rhinestones for those moments "When you need to shine."

The name **Swarovski** stands for the perfect precision of cut crystal. A tradition started by **Daniel Swarovski** over one hundred years ago. When at the end of the 19th century, new creative style movements began to revolutionize European design, the young **Daniel Swarovski** decided to combine his love of crystal and his passion for creative design. Today Swarovski is the leading manufacturer of cut crystal and one of the most creative brands in the world. Swarovski crystals are more than just technically perfect components, they bring poetic radiance and passionate brilliance to your projects.

Flat Backs can be easily applied to a wide range of carrier materials, where ironing is not possible. They are durable, long lasting and versatile. This makes them the ideal decoration for watches, accessories, picture frames, bags, electronic devices, pens and pencils, fingernails etc. They are available in a multitude of colors, sizes and cuts - among them the article 2028, the new generation of brilliance.

Hot Fix can be easily ironed on to textile materials such as wool, cotton, linen, viscose, lycra, alcantara, silk, synthetics and denim, to name just a few. The flat back of the crystal has a layer of hot-melt adhesive that is activated by using heat and then bonds with the carrier material. They are wash-resistant and come in a multitude of colours, sizes and cuts - among them the Crystallized TM XILION Rose, the new generation of brilliance.
